QBH Fiber Optic Connector

Laser and Medical Power Delivery Connectors

The QBH interface connects a fiber delivery cable to a compatible laser processing head. Select the optical band and end-face configuration for cutting or welding equipment.

Technical specifications

Wavelength band, 950 nm nominal	900 to 1000 nm
Wavelength band, 1064 nm nominal	1030 to 1090 nm
Operating temperature	+10 to +50 °C
End face	Unsupported physical-contact fiber tip
Jacket options	PVC or miniature hollow armored tubing
Ingress protection	IP67
