SMA905 High-Power Fiber Optic Connector

Laser and Medical Power Delivery Connectors

The SMA905-format connector couples light into or out of a laser delivery fiber. The allowable optical power depends on the fiber configuration.

Technical specifications

Operating temperature (°C)	-40 to +85 / -60 to +300 (High-temperature type)
Ferrule type	Unsupported PC fiber tip
Jacket	Miniature hollow armored tubing, SUS flexible metal hose
